- Es gibt Abenteuersafaris, bei denen man, begleitet von einem Touristenführer, zu Fuß geht. Es gibt Familiensafaris im Jeep und es gibt Premiumangebote mit üppigen Speisen. Es ist auch möglich, eine Safari mit dem eigenen Auto oder einem Mietwagen zu machen. Man kann im Zelt, in einer Lodge oder Luxusunterkunft übernachten.

**62/3 Writing**

a) Musterlösung:

I'd like to take part in a safari because I think that they're a great way to observe animals in their natural environment. At home, we can only see wild animals, such as elephants, lions and zebras at the zoo, where they aren't free. Another reason why I would like to go on a safari is that with the entrance fee, you support the work of the conservation of wildlife. However, I wouldn't like to do a self-drive safari. In my opinion, you learn a lot more about plants and animals if you have a guide.

b) Musterlösung für Bild B:

It was the last morning of their safari holiday in South Africa. Carol and John were sitting on a bench outside their lodge in Kruger National Park. They were having coffee and enjoying the view of lions and other wild animals at a waterhole when they saw another couple from their tour group walking towards the waterhole and taking photos of the lions. It seemed like they had left the lodge on their own, without a guide. Suddenly one of the lions noticed the couple and made a terrifying sound. The other lions turned around and together they started to walk in the direction of the couple. Carol and John were completely shocked. They thought about calling their guide, but then it might already be too late. They knew that they had to do something immediately, so they shouted and clapped loudly to attract the lions' attention. The lions turned towards Carol and John, and while they were distracted, the other couple managed to get back to the safety of the lodge.

**62-63/4 Use of language**

a) 1. high; 2. to conserve; 3. space; 4. connection; 5. problem; 6. illegal; 7. to hunt; 8. alive; 7. violent; 10. to be killed
