Ziel 1: I can understand information about Australia.

Australia is a country and also a continent with a huge desert at its centre. Most of its cities are near the coast, like the biggest cities, Sydney and Perth. The capital, Canberra, has lots of woods and farms around it. Australia is famous for its great wildlife and interesting landscape. From Uluru in the red centre to the Great Barrier Reef to Sydney, there is something for everyone. There are lots of animals too, like kangaroos and koalas, and also thousands of types of fish, spiders and insects.

Many people think of Australia as a country full of immigrants, but the Aboriginal people have been on the continent for thousands of years and have very old traditions and culture. Tourists from around the world come to Australia for the ‘sun, sea and surf’ lifestyle.

Ziel 5: I can pass on information at a pharmacy.

When I came home from school this afternoon I felt really bad 😞. So I decided to go to a pharmacy. “I have a headache and a sore throat,” I told the pharmacist. He answered, “I think you’ve caught a cold. It’s best to take one tablet after breakfast and one before you go to bed for five days. You also need to drink lots of water.” I was worried and said, “Now I can’t take part in the talent show on Saturday afternoon. That means no singing for a few days!” The pharmacist told me, “That’s too bad. If you aren’t better by the end of the week, you’ll have to see a doctor.”

1. Lily sagte dem Apotheker, dass sie **Kopf- und Halsschmerzen** habe.
2. Der Apotheker riet ihr, **fünf** Tage lang **eine Tablette nach dem Frühstück und eine Tablette vor dem Schlafengehen einzunehmen und viel zu trinken**.
3. Lily erzählte ihm, dass sie am **Samstagnachmittag nicht am Talentwettbewerb teilnehmen** und die nächsten Tage **nicht singen können**.
4. Der Apotheker fügte hinzu, dass sie zum Arzt gehen müsse, wenn es **bis Ende dieser Woche nicht besser sei**.
Ziel 1: I can understand information about Australia.

About 30 million years ago the Australian continent broke away from Antarctica. There are a few animal species that only live in Australia, for example the koala and the kangaroo. The Aboriginal people have lived in Australia for over 50,000 years. When British settlers arrived in the 18th century, they killed a lot of the Aboriginal people. Australia is famous for its coasts and landscape, but there are also a lot of big cities. Australians like spending a lot of time outside. They love the beach, where they have parties and do sport. The centre of Australia is known as the outback. There are huge farms in the outback, but only a few people really live there. Many people live a long way away from each other, there are often no schools or hospitals near them.
