

### Activity 3: Internet research – Opportunities for Refugees (Child Refugees, p. 68, ex. 5)

- 1 Your British friend is a volunteer in the children's section of the Refugee Council in London. He wants to know what sort of services the German government offers to child refugees who have just arrived in Germany. You decide to research local and federal government programs to provide your friend with this information.

Collect information about:

- statistics regarding child refugees in Germany
- programs offered by the government and non-governmental organisations
- stories from child refugees who have made it to Germany

- 2 Now write your friend an email outlining the results of your research.
