| quote                       | Angebot                           | We need to get a quote from the electrician to see how much it will cost. |                                                        |
| adjustments ( <i>pl</i> )   | Anpassungen                       | adjustment = modification                                                 |                                                        |

| Englisch    | Deutsch                       | Beispiele / Erklärungen                       | Eigene Beispiele oder Übersetzung in die Muttersprache |
|-------------|-------------------------------|-----------------------------------------------|--------------------------------------------------------|
| to estimate | schätzen                      | Can you estimate how long it will take?       |                                                        |
| tariff      | Tarif; Gebührensatz           | = a list of fixed prices                      |                                                        |
| to invest   | investieren                   | = to put time, effort or money into a project |                                                        |
| supplier    | Lieferant/-in; Zulieferer/-in | supplier → to supply                          |                                                        |
| attachment  | Anhang                        | = a file that you attach to an email          |                                                        |
| nor         | auch nicht                    | Vegans don't eat meat nor cheese.             |                                                        |

### Text workshop A - Migration and work

| Englisch         | Deutsch                   | Beispiele / Erklärungen                                                 | Eigene Beispiele oder Übersetzung in die Muttersprache |
|------------------|---------------------------|-------------------------------------------------------------------------|--------------------------------------------------------|
| migration        | Migration                 | migration → migrant → to migrate                                        |                                                        |
| to print         | drucken                   | to print → printer                                                      |                                                        |
| to target        | zielen auf; anpeilen      | to target = to aim at                                                   |                                                        |
| inevitable       | unvermeidlich             | inevitable ↔ preventable                                                |                                                        |
| prosperity       | Wohlstand                 | prosperity → prosperous                                                 |                                                        |
| to unite         | vereinen; vereinigen      | to unite → unity                                                        |                                                        |
| productivity     | Produktivität             | productivity → to produce                                               |                                                        |
| to intensify     | intensivieren; verstärken | When you intensify what you're doing, then you put more work into it.   |                                                        |
| refugee flow     | Flüchtlingsstrom          | = a stream of people seeking refuge                                     |                                                        |
| to liberalise    | liberalisieren; freigeben | = to make sth less strict                                               |                                                        |
| financial crisis | Wirtschaftskrise          | A lot of people lost their jobs because of the global financial crisis. |                                                        |

| Englisch          | Deutsch                  | Beispiele / Erklärungen                                            | Eigene Beispiele oder Übersetzung in die Muttersprache |
|-------------------|--------------------------|--------------------------------------------------------------------|--------------------------------------------------------|
| circumstance      | Umstand                  | circumstance = condition                                           |                                                        |
| populist          | Populist/-in             | populist → populistic                                              |                                                        |
| to boost          | steigern                 | to boost = to increase                                             |                                                        |
| lunatic           | Verrückte/-r             | = a person who behaves in a foolish manner                         |                                                        |
| mainstream        | herkömmlich; Massen-     | Ben listens to mainstream pop music.                               |                                                        |
| to favour         | bevorzugen               | to favour ↔ to hinder                                              |                                                        |
| alien             | ausländisch; fremd       | <i>Here</i> = foreign                                              |                                                        |
| to argue          | argumentieren            | to argue → argument                                                |                                                        |
| public perception | öffentliche Wahrnehmung  | The climate crisis has become a global issue in public perception. |                                                        |
| consent           | Zustimmung               | consent = permission                                               |                                                        |
| to facilitate     | erleichtern; ermöglichen | = to make sth easier; to make sth possible                         |                                                        |

### Text workshop B - Gender and diversity

| Englisch   | Deutsch                       | Beispiele / Erklärungen           | Eigene Beispiele oder Übersetzung in die Muttersprache |
|------------|-------------------------------|-----------------------------------|--------------------------------------------------------|
| gender     | Geschlecht (sozial)           | The gender of a girl is female.   |                                                        |
| diversity  | Unterschiedlichkeit; Vielfalt | diversity → diverse → diverseness |                                                        |
| inequality | Ungleichheit; Unterschied     | inequality ↔ equality             |                                                        |
| equation   | Gleichgewicht                 | equation ↔ difference             |                                                        |
| to tackle  | angehen                       | = to fight against (a problem)    |                                                        |
| appearance | Erscheinung                   | appearance → to appear            |                                                        |

| Englisch                    | Deutsch                                 | Beispiele / Erklärungen                                          | Eigene Beispiele oder Übersetzung in die Muttersprache |
|-----------------------------|-----------------------------------------|------------------------------------------------------------------|--------------------------------------------------------|
| to utilise                  | nutzen                                  | = to use for a particular purpose                                |                                                        |
| to be disturbed (about sth) | (über etw) beunruhigt sein              | disturbed → disturbance → to disturb                             |                                                        |
| to transform                | umwandeln; verwandeln                   | to transform ↔ to stay the same                                  |                                                        |
| to achieve                  | erreichen; leisten                      | to achieve → achievement                                         |                                                        |
| gender justice              | Geschlechtergerechtigkeit               | = equal conditions and rights for all genders                    |                                                        |
| to make a contribution      | einen Beitrag leisten                   | to make a contribution → to contribute                           |                                                        |
| dominant                    | dominant; dominierend                   | dominant ↔ subordinate                                           |                                                        |
| to fail (at)                | versagen (in/bei); fehlschlagen         | to fail = to be unsuccessful                                     |                                                        |
| to engage                   | verpflichten                            | to engage → engagement                                           |                                                        |
| to mobilise                 | mobilisieren                            | The team had mobilised all their fans for support.               |                                                        |
| domestic labour             | Hausarbeit                              | = household chores                                               |                                                        |
| to advocate                 | befürworten; verteidigen; eintreten für | to advocate = to support                                         |                                                        |
| transgender                 | transgender; transsexuell               | LGBT: lesbian, gay, bisexual and transgender people              |                                                        |
